

SETA 67 Public Information Committee Motion for Additional Funding

Motion-

The Area Public Information Committee is making a motion to request an amendment to our 2026 budget. We humbly ask that the Area increase the previously approved budget of \$825.00 to \$3735.00 (additional total funding of \$2,910) to meet the needs of our expanding population in Area 67.

Background Information-

There was no participation from the Area Public Information Committee in the 2026 budget process. The current chair was elected at the October Assembly in 2025. Therefore, after auditing all Committee resources and the needs of this vast region, we arrived at this figure.

Increasing our 2026 budget will allow the committee to:

1. Purchase Public Service Announcements (PSA)- for \$2500
2. Offer more workshops for \$100,
3. Register for health fairs for \$100,
4. Purchase updated literature and update all the committee resources for \$210.

The Area Public Information Committee and the Area Finance Committee have approved this budget amendment.
