TRADITION
CONTRIBUTION

Financial support from groups is vital to ensure the AA service structure functions at full strength, providing essential services to make more and better 12th step work possible. Groups are encouraged to adopt a specific contribution plan, through an informed group conscience, for each of the AA service entities. No contribution toward carrying the message is too small.

RECOVERY TOOLKIT

"THE ONLY UNCHANGEABLE CERTAINTY IS THAT NOTHING IS CERTAIN AND EVERYTHING CHANGES." – JOHN F. KENNEDY

Change can be scary and difficult because it involves risk. But we can adopt a new mindset and instead of looking at change as something to dread, we can consider it a new adventure. Change is an opportunity to experience something new and to grow spiritually. Change asks us to learn new things, master new skills, develop new qualities.

Trying to resist change robs us of the experiences that can transform our lives.

By welcoming, or at least not fighting change, we allow ourselves to cooperate with the natural rhythm of reality, for after all, change is the only constant in life.

Instead of asking "Why is this happening?", try asking "What's the opportunity in this?"

We truly can decide how to respond to events and situations. We can imagine the best possible outcome instead of the worst-case scenario. While it's important to acknowledge any fears, it is also important to take action anyway. Just because we are moving into unknown territory doesn't mean it's bad. It could very well be the best thing that ever happens to us.
