

Financial support from groups is vital to ensure the AA service structure functions at full strength, providing essential services to make more and better 12th step work possible. Groups are encouraged to adopt a specific contribution plan, through an informed group conscience, for each of the AA service entities. No contribution toward carrying the message is too small.

Jack Alexander's 1941 article on Alcoholics Anonymous burst onto the scene and ignited a revolutionary shift in how society views and treats alcohol addiction. With passion and empathy, Alexander's article debunked the prevailing notion that alcoholism was merely a moral failing. It boldly declared that alcoholism is a disease, deserving of compassion and understanding. By sharing powerful stories of individuals who had triumphed over their addiction through the transformative power of Alcoholics Anonymous, Alexander sparked a beacon of hope for countless others who were trapped in the grip of alcoholism. His article became a rallying cry, an affirmation that recovery was possible and that no one should suffer in silence or isolation.

The impact of Alexander's article was profound and far-reaching. It shattered the stigma surrounding alcohol addiction, challenging society to embrace a new perspective. It brought Alcoholics Anonymous into the spotlight, showcasing its innovative and effective approach based on mutual support, spiritual growth, and personal accountability. Alexander's article opened the floodgates of awareness, leading to a surge in demand for AA meetings and literature. It paved the way for a compassionate understanding of addiction and laid the foundation for the growth and widespread acceptance of Alcoholics Anonymous as a beacon of hope and healing for individuals and families affected by alcoholism.
